Green Energy Solutions

CLARKE GROUP UNVEIL NEW WEBSITE

The revamped and radically redesigned Clarke Group Website is now online and can be found at www.clarke-group.com. The website features comprehensive details about Clarke Energy, Clarke Wind and Clarke Telecom, and importantly reflects the global representation of the overseas offices.

The website contains the latest news and information concerning all of the companies activities in addition to worldwide contact details for the Clarke Group network.

The visual impact of the new site is a dramatic design change representing the growth and direction of the Clarke Group. Emphasis has been placed on the structure of the information and ease of navigation around the site. The importance of a website as a window to the world cannot be overlooked, Ian Hill commercial manager for Clarke Energy revealed, "More enquiries come through our website than from any other channel. We have achieved with this website a clear statement of what the Clarke Group is all about, a company moving forwards".

Note:-

The Clarke Group is a leading solutions company for gas power generation, wind turbines and telecommunications. With offices in UK, France, Nigeria, India and Australia the Clarke Group employs over 170 people.

Further information about the Clarke Group and its activities is available by contacting the Public Relations and Marketing Department on 0151 546 4446 or via email: pr@clarke-energy.co.uk
